

Mr. Van Allen, Advertising Manager of The Alumnus Magazine, points out an exhibit to a group of students at The New Hampshire Industries Exhibition, which was held in the Strafford Room from January 11 to the 15th. Paul McIntire of the Testing and Placement Service was in charge of the exhibition. (Photo by Purdy)

## Gives Seniors Chance For Job Interviews

By GAY FARIBAULT

The New Hampshire Industries Exhibition was held in the Strafford Room of the Memorial Union Building from January 11 to January 15. Many phases of New Hampshire industry and business were present.

This exhibition gave all students, especially senior boys the opportunity to be interviewed for positions with firms in New Hampshire. It also gave unknown companies the chance to become known to students and New Hampshire residents.

One of the main purposes of the exhibit was to acquaint students with the industry in their own state. Many companies which were recruiting did not realize that they had any opening until some of the students stated their qualifications. The companies then hired these students. In this way it was a learning process for industry as well as for the students.

The long range plan is to familiarize UNH underclassmen with the industry in this state. Last year this exhibit was held on the balcony of the Union building. This year there were so many companies exhibiting that the show had to be moved to the Strafford Room to accommodate all the companies. It is expected that next year's exhibition will be even larger than this year's.

Sixteen companies exhibited, five recruited only, two agencies of the state government, representatives of the Ports-

to participate in this informational type showing. It was sponsored by the University, and the Office of University Development underwrote the costs.

### Open to Everyone

Following the faculty buffet the exhibition was opened to faculty members. Mr. McIntire said that they were surprised at the amount of industry that was in New Hampshire. He also stated that only one tenth of it was shown at this display.

It was open to the general public as well as high school and University students. Several of the company representatives noted that they saw more boys at the show than girls, but they also stated that they were surprised at the number of girls that did come in.

### Exhibitors' Comments

One representative in particular noted that many of the girls just browsed. Had there been an exhibit geared more to the

Eastern Air Devices was one of the many companies to be represented at the New Hampshire Industries Exhibition. Mr. Robert Taatzes of the company is shown illustrating material to students (left to right) Bob Nadeau, Norton Sims and Mike Edwards. (Photo by Purdy)

mouth Naval Shipyard, and members of the New Hampshire Bankers Association were on hand to give information. Members of the University experimental engineering group assisted at the show.

The chairman of this exhibit was Mr. Paul McIntire of the UNH testing and placement department. Mr. Van Allen and the staff of the Memorial Union assisted him. All companies were invited

female interests, he felt that more girls would have been genuinely interested.

Mr. Stimson, representative of the New Hampshire Bankers Association said that through this he felt "a sense of pride in New Hampshire." He went on to say that there is such a variety of industry in this state, and "many people don't know the variety of industry for the stu-

(Continued on page 8)

## Mask and Dagger Announces The Opening Of "Reluctant Debutante," Second Of Year's Performances

By MARTHA HIGGON

Tonight the curtain will rise on the second performance of *The Reluctant Debutante* produced by Mask and Dagger. Last night and tonight have been the result of a semester's work in Dramatics Workshop with Professor Batcheller.

The performance is at eight o'clock in New Hampshire Hall with all seats reserved.

One of the most interesting things about the play is that the set is constructed in a way which is called minimal scenery. One of the reasons for this is that Mr. Toubbeh, who is directing the work on the set believes that the use of different types of sets for the different plays provides a good way for the students to learn about different sets.

### Minimal Scenery Difficult

Minimal scenery is more difficult to construct than the regular type of set with high sides. The main characteristic is the low sidelines. This makes lighting more difficult because the background is just the curtain which is behind the set.

This type of scenery makes it possible for everyone in the audience to see all of the action on the stage. As those who saw *Bus Stop* and previous productions realize, the stage in New Hampshire has very poor sidelines. This was corrected in the set of *Bus Stop* and has also been in the set of *The Reluctant Debutante*.

### Set Design by Morrill

The set was designed by Lauren Morrill, who is a student in Arts 35. Most of the work on the set has been done by the Arts 35 class under the direction of Mr. Toubbeh.

In any play the set must provide the environment for the play. The lines must compliment the action and reveal the characters. The curved lines and the sweep of the set reveal the spine of *The Reluctant Debutante*. Since the set must

compliment the action, it is necessary that the set is not more beautiful than the play. The set must virtually disappear when the action begins, and serve only as a background against which the action takes place.

### Set Functional

The set must be functional and help the movement of the play. This is accomplished by the placement of doors and other parts of the set. One of the most important features of the set for *The Reluctant Debutante* is that it is three dimensional. This means that the walls have thickness and seem more real like a section of a real house. Mr. Toubbeh likes three dimensional scenery because it compliments the actors who also are in three dimensions. If the set were only in two dimensions, there would be contrast between the actors and the set.

The play is under the direction of Professor Batcheller, and the cast is composed of students in English 47. The cast includes James and Sheila Broadbent played by Wayne Sanders and Barbara Wagner; Jane Broadbent played by Lynn Van Siclen; Mabel Crosswaite played by Patricia Martin; Clarissa Crosswaite played by Dena Wilner; David Bullock played by Gary Carlin; and Mrs. Edgar played by Linda Griffin.

## Outing Club Trip To Franconia Is Successful Result Of Hours Of Planning And Favorable Conditions

By BAMBI STEVENS

Along about Friday afternoon, or perhaps even Thursday, the cry of "Hey! Goin' skiin' s'weekend?" is pretty common around campus in the snowy season. Outing Club members, however, are not of this group. They begin talking about the next weekend's ski trip on Monday! The trip is planned at Blue Circle meeting in plenty of time so that everything can be taken care of.

Let's look at an old trip report to see what these O.C. trips are like. This one was an overnight trip to Franconia to stay in the new NHOC cabin there and ski Cannon Mountain. We quote: "The trip left right on time from the Student Union. The O.C. truck and two private cars (which were given mileage refunds) went. Beautiful weather, four inches of new powder on a 10- to 20-inch packed base, temperature just a little below freezing. Arrived at the Tramway after making very good time since there was little traffic and roads weren't slippery.

### Half-Price Tickets

Got our half price all day NHOC ski rates, and were off for the slopes. Skied all morning and then met for lunch — price of trip included meals. Sat around for a few minutes and discussed the trails and the skiing because a sudden hard blizzard came up during lunch and left another inch of new powder, but passed after we had finished eating.

Skied until about 3:30 and then drove down to the path to the cabin. Someone had already broken it out so the quarter-mile walk wasn't bad at all. Built fires in the fireplace and the two stoves, then unrolled our sleeping bags on the beds upstairs. Had a hot dinner, and cleaned

up the kitchen before we sat around the fireplace. We sang songs, told stories, and jokes, and counted up the number of falls for the day. Most everyone had only fallen two or three times at the most, of course. About nine o'clock when the upstairs was good and warm, we all turned in.

### Pancakes and Coffee

In what seemed like no time at all, it was 7:00 in the morning and someone had a fire going in the stove. Downstairs to pancakes and coffee for breakfast, and then out to the slopes. Another beautiful day, excellent skiing, all lifts operating, and all trails open. Not much of a crowd though and no more than a minute or two to wait in line for the tow.

Tired and happy, we piled into the truck and cars after the slopes had closed, and headed back to campus. Arrived back about 7:00, everyone safe and sound."

Well, I'm not saying that all Outing Club ski trips happen exactly the way the one just described did. But if there ever will be a perfect ski trip, you can be sure that Outing Club will run it. So if you can't believe the above account, come along this weekend and see for yourself; maybe it will be the perfect one.

## Dr. L. Slanetz of Bacteriology Dept. Attends Study Section On Health

By MARTHA HIGGON

On January 4, 5, 6, Dr. Lawrence W. Slanetz, chairman of the department of bacteriology, attended a study section of the National Institutes of Health and Environmental Health at California Institute of Technology in Pasadena, California.

The symposium met for two reasons: first, to discuss problems relating to water sanitation, and second, to consider applications for research grants from scientists around the country who are engaged in research in environmental health.

### Treatment of Water

The main problem concerning water sanitation is the question of the possibility of re-utilization of water. Some parts of the country already have a water shortage. Thus this is an urgent problem. The main objective of the discussion was to discover how water can be treated after use and made fit for re-use.

The symposium considered about sixty applications for research grants in two days. These applications come from scientists around the country who are doing research in such fields as water, food, and air pollution, and transmission of disease through air. The committee reviews these applications, then either recommends them or not.

### Grants

The Institutes base the awards on the

## Official Notices

All students are responsible for knowledge of notices appearing here.

**Foreign Students.** A reminder that all aliens must register at the local post office during the month of January.

**Motor Vehicle Registration.** The University Traffic Committee again calls attention to the University regulation requiring registration of all student-operated motor vehicles. Cars in the Durham area without registration are subject to a \$10. fine. Official stickers are available at the Traffic Control window, Business Office, Thompson Hall.

**Withdrawal from the University.** A student may withdraw from the University in any semester by obtaining signed withdrawal forms from his adviser, countersigned by the Dean of his College for honorable dismissal, for filing with the Office of the Registrar. Failure to

(Continued on page 8)

# Campus Spotlight

Donald H. Richards

By JUDITH GRAY

Mr. Donald H. Richards, the Alumni Executive for the University of New Hampshire, administrates the Alumni Program which includes over 20,000 alumni. He is a member of the American Alumni Council, the New Hampshire Historical Association, the Strafford County Executive Service Board, and the Wakefield Historical Society.

Mr. Richards is originally from Exeter, N. H., where he graduated from Philip's Exeter Academy. He then attended the University as a history major. After spending some in the Navy during World War II, he became a Guidance Counsellor here at the University.

Then, in 1946, he became a teacher of History and English in Dover. From 1948-1955 he was the Director of Placements, and from 1950-1956 the Director of Admissions. From 1956 to the present he has been Alumni Executive.

## Part-Time Historian

Mr. and Mrs. Richards have a family of three; a daughter Dawn who is a sophomore at Sanford University, a son Timothy, who is a sophomore at Philips Exeter Academy, and a daughter Faith, who is in the ninth grade at Oyster River High School.

Although Mr. Richards has very little spare time, he does enjoy golfing at the Portsmouth Country Club during the summer. He also takes a great interest in doing research in American History.

## Wide-Range Program

Mr. Richards has this to say about the work of the Alumni Association: "The Alumni Association is made up of former students who are organized into two categories: class organizations which preserve the identity of the class, and forty alumni clubs of all classes spread throughout the country as far as Los Angeles and San Francisco.

Under these present alumni organizations, activities are directed toward providing the University with educational advantages such as visiting professors, special equipment, and projects serving to

Mr. Donald H. Richards  
(Photo by Purdy)

stimulate the people of New Hampshire to recognize the excellence of the program offered at their University."

## Carillonneur, Anyone?

Professor Irving D. Bartley, University carillonneur, announces that a new automatic roll plays evening hymns Monday, Wednesday, and Friday afternoons at 5:15. Mr. Bartley is issuing a second request for carillonneurs to give programs Tuesday and Thursday afternoons at 5:15 and Monday noons from 12 to 12:10. Please see Mr. Bartley at Ballard Hall, Room 203, if interested.

# Hungarian Student, Ex-Draftsman Is Pre-Med Major

By Sandra Barnard

This week we met Zoltan Kovacs a Hungarian student who is a sophomore and a Pre-Med. major. Originally from Kecskemet, Hungary, he is now a permanent resident of the United States. He and his older brother immigrated here in Dec. 1956 toward the end of the Hungarian Revolution.

Zoltan graduated from Scolarum Piarum Gymnasium (i.e. high school) and then went to Budapest where he worked and continued his schooling in drafting.

## Arrival Here

When he arrived here he worked in Lawrence, Mass. as a draftsman and later as a designer, then entered the University in the fall of 1958. Upon graduating he plans to enter medical school as his life-long ambition has been to become a doctor. His brother, now in Newark, is about to receive his Ph.D.

Zoltan finds America very different from Hungary. The social atmosphere in Hungary is formal, tending away from our casual one. In Hungary, people tend to group together according to occupation; for example, one would rarely find electricians fraternizing with insurance men. He misses the abundance of theatres, ballet and opera but was amazed at our abundance of automobiles and home electrical devices.

## Woman's Place

There is, in Hungary, a subordination of women which we do not find here. A woman's place is in the home — or was until the Revolution. He finds Americans friendly and America an ideal place in which to live.

He has already seen much of the United States, Canada, and Mexico, and in his childhood days had occasion to travel throughout much of Europe with his family.

# Club News

## HILLEL

The Hillel group pictures for the *Granite* will be taken at 8:50 p.m., January 20 in the Strafford Room of the Memorial Union Building. If you want your picture in the yearbook, please be there.

On Thursday, January 21, Mr. G. Harris Daggett of the English Department will speak on "Individual Freedom", with highlights from the Uphaus case. The meeting will start at 7:00 p.m. in New Hampshire Hall's Games Room. It is open to everyone, and refreshments will be served.

## HORTICULTURE CLUB

The January meeting will be held on Thursday, the 21st, at 7:00 p.m. in Room 314, Nesmith Hall. This month's meeting will feature a talk on Rhododendrons by Radcliffe Pike.

Also, on the 21st, the picture will be taken for the *Granite* at 5:15 p.m. in the Strafford Room of the Memorial Union Building. All members should be at the Union a little early so that we will have time to get organized before the picture is taken.

## NEWMAN CLUB

The movie "Fighting Father Dunne," scheduled to be held at the Newman club tonight, has been cancelled.

As a result the next meeting of Newman Club will not be until second semester.

## PSI EPSILON

Psi Epsilon, the Honorary Economics and Business Society of the University, held its annual banquet and installation of officers on January 7 at Flagstones Restaurant in Newington. Retiring President Richard Pierce reviewed the Society's activities during the past year, and turned the gavel over to the new president, Norman Murphy. President Murphy introduced the other officers for 1960: Vice-President Charles Brand, Secretary Leslie Buckman, and Treasurer John Stanton. After the installation the members and guests mingled in an informal social hour.

## W. R. A.

The Women's Ski Club went to Jackson the weekend of January 9. More trips are being planned. Sponsored by WRA, these trips offer instructions for the beginner and excellent skiing for the advanced skiers. Reasonable fees are charged for lodging and two meals, and participating is open to anyone.

Badminton playoffs within the housing units will end by January 22. The campus tournament will be played shortly after the results are in. For those who have not yet played their games, the New Hampshire Hall gym is open everyday from 8:00-9:00 a.m.; Wednesday and Friday at 1:00 p.m.; Thursday from 6:30-8:00 p.m.

# Veteran's Corner

A grant of money from the Veterans Administration to aid in acquiring specially adapted housing is now available to certain blinded veterans as well as eligible veterans who have lost the use of both legs, Richard F. Welch of VA's Manchester Regional Office said.

## Extended Benefits

A new law extends this benefit to veterans who, because of permanent and total service-connected disability, have lost the use of both legs, or who are blind in both eyes and have lost the use of one leg, and who cannot get about without the aid of braces, crutches, cane or wheelchair. The former requirement that loss of use of legs must be due to certain specific causes has been eliminated.

The VA's contribution, which may not be more than 50 percent of the cost of the home nor in excess of \$10,000, is a grant and need not be repaid by the veteran. The money may be used to pay part of the cost of building a new house, buying an existing house, or remodeling a home already owned by the veteran.

## Desired House Features

The house must contain certain desired features made necessary because of the veteran's physical condition. Items required include ramps, wide doors, larger bathrooms, and lowered light switches. The grant is provided to enable the veteran to have a home

# Prof. Carroll Towle Is Guest Of Honor At AFWL Meeting

Professor Carroll S. Towle of the University will be guest of honor at a dinner-workshop meeting of the Armed Forces Writer's League at the Sherwood Motel in Dover, Thursday, January 21.

## In Charge Of Writing

A professor of English in the College of Liberal Arts, Dr. Towle is in charge of advanced writing, and has been director of the annual writer's conference at UNH for 22 years.

The dinner is a regular feature of the AFWL program to assist beginners and professionals in their literary pursuits. Other member services include contests, marketing assistance, manuscript workshops, and a national editing service.

## Extended Eligibility

According to the League's Co-founder, Ray Ewing, "One of the few misconceptions about the AFWL is that (continued on page 3 )

specially adapted to the circumstances of wheelchair living.

Veterans interested in applying for this benefit should call or write to the nearest VA office for complete information.

## A Campus-to-Career Case History

Engineering of microwave relay and carrier systems keeps Bryan Clinton's job interesting and challenging.

## "I got the engineering career I wanted ...and right in my own home state"

In 1955, William Bryan Clinton, Jr., got his B.S. in Mechanical Engineering at Clemson College. Now Bryan's with Southern Bell Telephone and Telegraph Company at Columbia, South Carolina. He's doing specific planning of long distance communications projects involving cable carrier facilities and microwave radio relay systems.

Bryan chose a career with Southern Bell over several other offers. "There were three things that were most important to me," he says. "First, I wanted to go with an established, growing company where I could grow, too. Second, I wanted thorough basic training to get started off right, plus participation in development programs to keep me moving ahead. And, third, I wanted to stay in the South."

After 15 months of on-the-job training in various phases of company operations, Bryan was assigned to the Engineering Department at Columbia, S. C. His work with carrier systems and microwave radio projects has involved him directly in the growth of the company. And he's broadened his experience through development courses in management, general engineering, engineering economy, and microwave relay systems.

"I know I'm with a fast-growing company and I feel I'm really participating in its growth," Bryan says. "What's more, I'm getting the training I need to keep me abreast of new communications developments and take better advantage of advancement opportunities when they come along."

Bryan Clinton earned a B.S. degree in Mechanical Engineering. He's one of many young college men pursuing rewarding careers with the Bell Telephone Companies. Find out about opportunities for you. Talk with the Bell interviewer when he visits your campus—and read the Bell Telephone booklet on file in your Placement Office.

## Sororities Give Results Of Their Recent Election

Four of the six sororities have announced their officers for the 1960-61 term. They are as follows:

**Alpha Chi Omega:** President, Arolyn Benson; First Vice President, Leslie Buckman; Second Vice President, Penny Hallward; Corresponding Secretary, Lois Stickney; Recording Secretary, Lissa Foy; Treasurer, Barbara Herick; Assistant Treasurer, Carole Knowlton.

**Chi Omega:** President, Neil Whitten; Vice President, Joan Howland; Secretary, Joanne Carlisle; Treasurer, Kay Williams.

**Kappa Delta:** President, Janice Erickson; Vice President, Brenda Browne; Secretary, Emily Haskins; Treasurer, Marilyn Brown; Assistant Treasurer, Eileen MacDonald.

**Theta Upsilon:** President, Phoebe Collins; Vice President, Diane Langevin; Secretary, Rebecca Kalmanovitz; Treasurer, Brenda York.

### FELLOW CLOUDS!

Do you want to be an outstanding person on campus? Do you want your friends to stare at you in awe when you go by and say, "Can that be the J. Walter Paisley (or whatever your name is) we used to know — that clod everyone laughed at? Just look at him (her) now. What a man (woman)!" Are you looking for prestige? Security? Travel? Then be a *New Hampshire* reporter. The *New Hampshire* builds women (men).

Here's what we offer you free of charge to start you on your way to being really large on campus:

1. Membership in the University's largest and most controversial newspaper.
2. Interesting work with the opportunity to travel all over the campus.
3. Friendship among other ex-clods.

For further and more reliable information, come in and see us at *The New Hampshire* Office, Room 120 MUB, on Sunday or Monday evenings.

Monel nickel-copper alloy, a forerunner of today's "Alloy Age," was one of the earliest alloys to be generally accepted for corrosion-resistant applications and has been in commercial use for over 50 years.

## N.E. Schools Hold Debate Tournament

On Saturday, January 16, the High School Novice Debate Tournament was held on the University campus. The topic debated was, **RESOLVED: THAT SECTION 14B OF THE NATIONAL LABOR RELATIONS ACT SHOULD BE REPEALED.** This section is part of the Taft-Hartly Act and deals with the right to work.

The tournament director was Edward D. Shanken. He was assisted by Professor Phyllis Williamson, who is the debate coach at the University. The judges were coaches from the various schools represented. The chairmen-timekeepers were University debaters. The judges in the finals were Professors Batchelor, Cortez, Toubbeh, and Stein, assisted by University debaters.

### Twenty-Two Schools Represented

There were twenty-two schools participating representing New Hampshire, Vermont, Maine, Massachusetts, and Rhode Island. Each school brought one negative and one affirmative team.

The tournament was won by Holderness Academy. The runners-up were Winnacunet High from Hampton and St. John's Preparatory from Danvers, Mass.

Each team participated in three rounds, then the totals were tallied, and three teams entered the finals. There were three judges in each of the final rounds, and the winner was chosen as a result of these ballots.

### Carroll Towle . . .

only members of the military are eligible for membership. This was true five years ago, but today any U. S. Citizen is invited to membership."

Information pertaining to League activities may be obtained by writing to National AFWL Headquarters, 1832 N.E. 7th Ter., Gainesville, Fla., or to Portsmouth branch president, Stephen J. Allen, 71 Wyman Ave., Kittery, Me.

## Fraternities Hold Elections, Vote New Officers In

The following fraternities have elected officers for the ensuing year. The top officers of each fraternity are:

**Acacia:** President, Bill Fuller; Vice President, Bob Blaisdel; Secretary, Dick Ross; Treasurer, Paul Lindquist.

**Alpha Tau Omega:** President, Alan Maxwell; Vice President, Bob Jones; Secretary, Gwyn Julian; Treasurer, Mike Kirk.

**Kappa Sigma:** President, Steve Fitts; Vice President, Stan Fitts; Secretary, George Davis; Treasurer, Bruce Goodhue.

**Phi Sigma Delta:** President, Allen Roffman; Vice President, James Fox; Secretary, Mike Szeicher; Treasurer, Alan Weinstein.

**Phi Kappa Theta:** President, Ronald Pomerleau, First Vice President, Salvatore Perra; Second Vice President, Mike Hennessy; Secretary, Edward Donovan; Treasurer, Bernard LaBonte.

**Phi Mu Delta:** President, Marty Woolfson; Vice President, Paul Narkowitz; Secretary, Peter French; Treasurer, Larry Bresnahan.

**Sigma Alpha Epsilon:** President, Dick Gage; Vice President, Tony Ross; Recording Secretary, Bud Plamondon; Corresponding Secretary, Ed Doherty; Treasurer, Dick Houghton.

**Tau Kappa Epsilon:** President, Philip McKenzie; Vice President, Robert Livingston; Secretary, Toby Sprague; Treasurer, David Chauvin.

**Theta Chi:** President, Bill Van Note; Vice President, Fred Walker; Secretary, Bill Banks; Treasurer, Jed Williamson.

## Home Economics Lecturer Discusses Graduate Study

"Graduate Program in Home Economics" was the topic of Dr. Laura Drummond's talk to the Home Economics students on January 15. Dr. Drummond who is a Professor of Home Economic at Columbia University and former Dean of Home Economics students is at present visiting schools and colleges throughout the country as a part of her sabbatical year.

In her talk, she pointed out the im-

portance and value of home economists having advanced degrees. She also stressed the well-paying positions for professional home economists and the need for more of them. At present 28,000 women and 5,000 men are enrolled in graduate home economics programs.

All over the world graduates of home economics are helping to organize College home economics programs.

During 1957, there were 1,300 fewer highway traffic fatalities than in the previous year.

# The New Hampshire

Published weekly on Thursday throughout the school year by the students of the University of New Hampshire. Entered as second-class matter at the post office at Durham, New Hampshire, under the act of March 8, 1879. Accepted for mailing at special rate of postage provided for in section 1103, act of October 8, 1917. Authorized September 1, 1918. Subscription: \$3.00 per year.

Address all communications to The New Hampshire, Memorial Union Building, Durham, New Hampshire. Offices are open for the acceptance of news stories from 7 to 10 p.m. on Sunday. Telephone Durham UN 8-2581. For emergencies call David Snow, Dover, SH 2-3676.

The New Hampshire makes no claim to represent the opinions of any group on or off Campus including the student body or faculty. All editorials are the opinion of the Editorial Board. All material submitted to The New Hampshire becomes its property. All letters, to be printed, must be signed, with names withheld on request.

## One "R"

During the Conference on Campus Affairs we heard several variants of a question that we have heard before, not so oddly enough right around exam time. Compiling all the questions into one, it sounds something like this: What is the possibility of instituting a reading period at UNH; other colleges and universities have them, why don't we?

Probably we don't have one because no one really wants one; that is, really wants one enough to do something about it.

But just in case some one wants to do something about it we are able to give a little history of the reading period and perhaps suggest what might be done.

A reading period, as it is found in other schools is not a "free time" period in the sense that classes are suspended prior to exams for the sole purpose of studying for finals in specific courses. The period is set aside for reading, integrating material that a student will be tested on in a general "unit" exam.

Only a few years ago there was a preparation, "free time" period here but it was abandoned. During the latter part of the last week before examinations classes were suspended. Since exams began then, as now, on a Monday the students has two, sometimes three, days in which to prepare. The students themselves didn't want to sacrifice any more time than that, as it decreased the number of days they could be working on their summer jobs; some didn't want a preparation period at all. (To remain an accredited college the University has to schedule pretty close to forty five class periods for a three credit course. Any "free" time before exams would mean an extension of the school year.)

According to Edward Y. Blewett, Dean of the College of Liberal Arts when the preparation period was abandoned, many of the students were interested more in passing exams than in learning. Interpreting for the Administration, he said that the preparation period was conducive to more procrastination; that it didn't help the people who used the period to catch up on back work, and wasn't necessary for the diligent student. And, of course, the preparation period would offer an excellent opportunity to practice skiing or swimming.

The same problems that had to be faced a couple of years ago are still around today, making the feasibility of a preparation period depend directly upon the students' attitude. Is the student body of the present any more responsible than the student body of the past? Only the students can answer that question.

So, if anybody is still interested in doing something about a preparation period, probably the "something" that could be done is to bring it before the Student Senate. We feel that the possibility of having a preparation period before exams, free from classes, is good provided the student body can convince the Administration that it is desirable, and will not be misused.

## 1960 Editorial Board

Last week The New Hampshire elected its Editorial Board for the year 1960. These officers will publish Volume 50 of this paper, commencing second semester:

Editor-in-Chief	Dick Shea
Associate Editor	Peter Mortenson
Managing Editor	Dick Duggin
Senior News Editor	Andrea Viano
Business Manager	Bill Dedham
Advertising Manager	John Dailey
Sports Editor	Doug Brown
News Editor	Gay Faribault
News Editor	Martha Higgon
News Editor	Ellen Pirro

## Ballot Results

Last week we ran, as a "matter of campus interest," a ballot to find out in which direction student opinion lies concerning compulsory ROTC. This ballot has nothing to do with the Student Senate committee researching in the same area. As we said then, we ran it as an item of "campus interest." We realize, of course, that this balloting does not prove anything conclusive, but it may be an indication of things to come. For what they are worth, here are the results:

Are you in favor of compulsory ROTC?	NO	YES
Freshmen	97%	3%
Sophomore	71%	29%
Junior	72%	28%
Senior	64%	36%
Total	78%	22%

Reprinted from the 'Denver Post'

## Foolish Fishing in NH

The state of New Hampshire cannot be proud of itself for having thrown an earnest 69-year-old pacifist into jail for refusing to turn over to the Attorney General of that state the names of persons who attended summer meetings in Conway, N. H., of a group known as World Fellowship, Inc.

Dr. Willard Uphaus, a former Methodist minister, a former professor in the Yale School of Divinity and a veteran but gentle fighter for unpopular causes, couched in terms of lofty idealism and Christianity, may turn out to be a martyr to the stupidity of would-be enforcers of orthodox ideas if New Hampshire isn't careful.

Dr. Uphaus may be right or he may be wrong in his approach to the question of Communism. Who knows?

Anyhow, he belives in listening to and arguing with Communists. He has done so in such places as Warsaw and Moscow.

No one seems to consider Dr. Uphaus subversive.

Louis C. Wyman, New Hampshire Attorney General, has said he concedes that Dr. Uphaus is not tainted with Communism.

Wyman was authorized by the New Hampshire Legislature in 1953 to find out if there were any subversives in the state.

This was a "fishing expedition" of dubious merit since such fishermen are normally looking for subversion against the federal government, which is a matter for federal rather than state control.

In the course of his investigation, Wyman published a report on persons who had appeared as speakers at the World Fellowship summer-conference sessions in 1954 and 1955.

From the Observation Post

## Anatomy of a Con Game

By DICK WESTON

The other day the Post Office Dept. nabbed a resident of Lancaster, N. H., on the charge of using the mails to bilk a group of his fellow-citizens out of half a million dollars. There is a beautiful moral hidden in this story.

Of all the infinite variety of criminals, the con-man wins our sympathy most easily. Most criminals do harm to us against our wills, but the victims of a con-game have themselves to blame as much as the man who took them in, in most cases.

The success of a con-game lies in the exploitation of an unfulfillable desire, held by a sizable group of people. It may be a thirst for riches, revenge, or a guaranteed pass through the Pearly Gates, but it's something those people want with every ounce of their wills — and deeply fear they'll never get.

Hope being what it is in the human breast, a situation like this needs only a plausible scoundrel to come along, convince these people that he can satisfy their heart's desire — at a price, and the stampede is on.

Our friend in Lancaster seems to have been just such a man. He apparently decided that a lot of people are upset over the way our country has been run since 1934. (He must be a regular reader of Manchester's largest newspaper.) He was attracted by the widespread concern over creeping socialism, galloping bureaucracy, and all the other right-wing shibboleths. This vocal panic must have spelled \$\$\$\$\$ in his mind.

He had a ready advantage, being a bona fide resident of New Hampshire, a state whose loyalty to the ideals of Coolidge has never been doubted. So he legally changed his name to Mark Granite — a true inspiration. (What a perfect name for a tight-fisted, no-nonsense Yankee.) And then he set up a non-profit foundation to fight the "New Deal Social Philosophy".

He had a large, fertile field of well-heeled suckers that few other con-men had cultivated, a cause in which no reasonable supporter could expect immediate results, and a tax-free, non-profit organization. It apparently operated for several years before the postal authorities discovered that Mr. Granite was devoting a good deal more of the take to his own upkeep and welfare than to the struggle against the ghost of Franklin D. Roosevelt. If the charges against him are proved, he stands in the way of spending several years in a secluded institution, being supported by society.

But I can't rouse any righteous horror within me at Mark Granite's nefarious scheme. Using the mails to defraud can be a vicious crime, but in this case it seems as though little, if any, harm could have been done. The kind of people who would contribute to his Foundation are not the lost unfortunates who fall prey to the cancer-cure quacks, the phony prophets, and the bucket shop operators. They would be mostly the sort of medieval *petit-bourgeoisie* who rattle around in the Old Guard of the Republican Party and scream from the editorial pages of every right-wing publication in the country. If they had not been taken in by Mark Granite, they would have been had by some other promoter.

And even if there had been no one around to prey on them, they would still have been conning themselves. The America they yearn for, the jungle society of the robber-barons, is gone forever. It perished in the Crash of 1929, and whether these reactionaries realize it or not, the rest of us have found a better life since then. Unless some disaster destroys the American political system, the vast majority of us will never forsake the "Neal Deal Social Philosophy" to return to a condition of involuntary servitude to the forces of fear, hunger, and hopelessness.

## Rubberneckers

By DICK SHEA

(The Apathetic Students' Society has become defunct. The officers didn't care enough to show up for the first meeting.)

The Memorial Union Building, lovingly called the Mub by those who care, has many purposes.

It offices student organizations, offers recreation facilities, (such as bowling, billiards, pingpong, sign-reading), it provides a lounge from which to watch Huckleberry Hound and Maverick, it provides a music listening room, it provides a stained-glass-windowed chapel-like room which just sits there and does nothing and looks impressive, and it provides a cafeteria.

It was in this very cafeteria that a short time ago I was shocked into the realization of still another purpose of the Memorial Union Building. But let me start at the beginning . . .

Several days ago I sat at a table rather centrally located. I was tearing up napkins, mixing salt with sugar, and so wieder, and generally doing nothing of any relevance. My colleague, J. Walter Paisley sat opposite me but he was temporarily hidden from view by the mountain of cups, saucers, plastic-coated-dixie-cups, straws and napkins which patiently lay waiting to be cleared away. This

(Continued on page 8)

Some of the speakers were Communists and others had been associated with organizations accused of being Communist fronts.

The state of New Hampshire did not attempt to prosecute any of the speakers, so it was fairly obvious that there was no evidence of law violation against them.

The whole inquiry was aimed at exposure for exposure's sake.

In other words, it was intended to blacken the reputations of persons who were guilty of nothing more than holding unpopular beliefs in a country which has always prided itself on freedom of thought and the right of peaceful assembly.

Having disposed of the World Fellowship speakers, Wyman turned his attention to the identification of the persons who had listened to the speakers.

He demanded that Dr. Uphaus give him lists of those who had attended the meetings.

Dr. Uphaus refused. He said his "loyalty to God and the Bible" would not permit him to be a party to any attempt to "bring into public scorn" people who might be innocent of wrongdoing.

Dr. Uphaus carried his refusal to the U. S. Supreme Court which, in a mealy-mouthed 5-to-4 decision last June upheld the authority of the attorney general to require him to answer.

Now, still defiant, Dr. Uphaus has gone to jail for civil contempt.

If we know anything of men of his kind, Dr. Uphaus never will talk and the longer it keeps him behind bars the more unreasonable and high-handed the state of New Hampshire will appear to be in the eyes of the American people.

## CONTEMPLATION

Come — and take away  
The burdens of reality.  
Come, and smooth my furrowed brow.  
With all your mystic might,  
With all your subtle strength,  
Take me far away  
Into the infinite of space.  
Take me where barriers depart,  
Compulsion is naught  
And requirements are nil.  
Take me to that shrouded vortex,  
Origin of man's ideas,  
That dynamic free floating plateau  
That is ever within the reach,  
Of those who truly desire.

B. F. George

sixty cents  
J. A. Cooke

A great number of foreign films rely largely on symbolism. *Lady Chatterley's Lover*, perhaps, leans too heavily on its symbols and the film seems to over state the apparently simple message of Lawrence's story. (About the best symbol of the American screen was the big bad wolf in the Disney pig movie which represented the depression to many viewers.) In this film Danielle Darrieux and Erno Crisa are adequately good as the lovers but Leo Genn's portrayal of the invalid Lord Chatterley makes the show really worth while. The film is in French but Genn's ability to establish that he is an English Lord is quite an acting achievement. Sub titles. 3.2

*Yesterday's Enemy* is a better than average war film. It is an account of the British and Japanese engaged in Burmese jungle fighting. A re-statement of the old soldier's message that war is really not particularly pleasant. Not a recruiting film. 2.5

*Six Bridges to Cross* was made before Tony Curtis decided he could act. He has since proven that he can, and very well too. This film is a slightly disguised account of the why and of the how of the Brinks armored car robbery with a long look at the why in the life of the criminal played by Curtis. Julie Adams and George Nader also are in the cast. 2.3

*But Not For Me* is sung by Ella Fitzgerald in the film of the same name starring Clark Gable, Carroll Baker, Lee J. Cobb and Lilli Palmer. The plot of this show has been popular in all ages and all cultures, it appears in mythology, ballads, poems, earliest drama and holy scripture. This is the third film from an old script most recently stated by Bing Crosby and called *Mr. Music*. The December-May romance theme is still good comedy. Color. 3.0

*Mr. Hulot's Holiday* is the original hilarious Mr. Hulot film. It is not to be confused with the more recent and inferior Hulot films. It's fortunate that it may be seen with last week's Chaplin film still in mind for the two artists share many comic characteristics. I remember the music as being a very appealing element of this amusing comedy. In French but with very infrequent dialog. 3.7

*Teahouse of the August Moon* is a fairly good adaptation of the hit Broadway play. Raunch is frequently the only leg a Broadway comedy has to stand on. It is usually some what whittled away for all those people out in movie-land. This film seems to stand solidly even if Brando can't keep his socks up. He (Marlon Brando) shows another facet of his versatile acting personality as the Okinawan interpreter for the Army reconstructionist Glen Ford. Good Comedy. Color. 3.0

## Letters To The Editor

## Effective Channels for Students

## Students' Advocates

## To The Editor:

On Thursday, Jan. 14, Dr. Carleton P. Menge was the speaker at a Coffee Hour sponsored by the Student Union. The topic of this discussion was student influence on the formation of University policy. It was brought out in this discussion that there exist on campus no effective channels for the synthesis and communication of student opinion to the people responsible for policy. It was also noted that there was no one to whom the student could turn when in trouble with the administration who would advise the student, and also, represent him and argue his cause. This is part of the job of Dean of Students, but under our present system, the Associate Deans lack effectiveness in this area because they are responsible for discipline.

All of the above functions could be well served by the existence of two life- or long-term-appointed officials whom I shall call for the purpose of this discussion "Students' Advocates". One of these "Advocates" would be a man, the other, a woman. To borrow from Socrates, they would serve as salaried "gadflies" on the flanks of the horse of state. The job of the "Advocate" would be 1) to advise and represent the student in disputes with the University; 2) to stimulate and focus student interest in the administration of the University; 3) to represent the student body in all of the policy-making councils of the University; and 4) to keep the student body informed as to what is happening in these councils, and stimulate students to support or oppose the policies that result.

It can be seen from the above that the person who held this position would have to be one who identified himself with the interests of the students rather than those of the administration. This is the biggest argument in favor of the creation of such a position: the students would have someone official, on their side, who would fight for them against what is now a complacent bureaucracy.

In the absence of such officials, Dr. Menge has offered to try to serve some of the functions outlined above. This is not, of course, what he was hired for, and he will therefore lack most of the investigative powers described above, but he is willing to try to help the student have a bigger voice in the determination of his education, and in the formation of administrative policy.

So, if you feel there is something going on at the University that is wrong, or that you are getting a raw deal, or if you have an idea for the improvement of the University as an institution or as a community, talk it over with Dr. Menge. His office is in the Education Department in the basement of Murkland.

The above proposal (which is not original with the author) is offered as a possible partial solution to the problem of student apathy, which was so accurately described in last week's *New Hampshire*. I hope that the administration of this University will give this proposal the benefit of serious consideration, and that the student body will demonstrate its interest by arming Dr. Menge with the weight of student opinion.

Gene Sidore '60

## Commons

## To The Editor:

I was rather surprised to learn that Commons Dining Hall is operated by a private nationwide concern. I believe that this condition tends to tie the hands of the University as far as doing very much about the conditions at Commons. I should think that it would be extremely difficult for this University to influence such a large concern to change its policy to any extent. I will admit that at times, the conditions are not as bad as they are made up to be. Regardless, I feel that they could stand considerable improvement.

One way to bring about some improvement would be for the University to set up its own dining hall such as the University of Maine has done. This would give the University direct control over dining hall facilities as well as affording the students more chance to influence changes and improvements. Of course I realize that this might bring about an increase in cost. Let's face it! Wouldn't the better meals we would get be well worth the increase in cost? I think so.

I hope this letter will serve to help overcome "student apathy" and perhaps stir a little enthusiasm to improve our dining facilities.

Gerald J. Lawrence

## Intellectual Freedom

## To The Editor:

In reply to the letter printed in *The New Hampshire* last week, I would like to say the following.

If educational institutions did not challenge and disapprove of laws and oaths which hinder their ability to search and present the truth and knowledge, then I would say that this "Communist victory" of Mr. McWilliams would be a reality.

The brave men who died did so to preserve freedom and liberty — does this exclude freedom of the mind or did they die to enable the government to stifle and hinder the intellectual freedom of our young people and the educational institutions of the United States?

I think that the young people are taught to think objectively. This includes looking at both sides of any issue. What other purpose would Mr. McWilliams suggest that they pursue? Submitted in the interest of education.

Peter Burleigh

## Booksale

## To The Editor:

We recently shot well past our goal of 10,000 paperbacks sold during our running sale — buy three and get one

## Program Assists Mothers With Clothing Problems

A half-hour television program designed to assist mothers with preschool children's clothing problems will be presented by WENH-TV, Channel 11.

Miss Ruth Pearce, Assistant Professor of Home Economics at the University, will conduct the program which will be seen on Tuesday, January 26, at 8:30 p.m.

The program will indicate contemporary ideas of functional children's clothes with emphasis on psychological features and self-help features.

## NOTICE

1963 Sophomore Sphinx applications will be collected at Commons during the noon and evening meals of Friday, January 22.

free. As we promised we will continue the sale, but with revised rules that will lead to even better bargains for the students. A great quantity of new stock has been added with more arriving every day. Please encourage the students to take advantage of this sale — it can't last forever!!

## Dr. E. D. Eddy Discusses Values In Higher Education

Dr. Edward D. Eddy Jr., Vice-president and Provost of the University, lectured at a three-day seminar on Values in Higher Education, January 17-19, at the Virginia Polytechnic Institute in Blacksburg, Virginia.

While at VPI, Dr. Eddy also addressed the staff in student personnel services and a conference of student leaders.

## Dr. Johnson Participates In American College Panel

Dr. Eldon L. Johnson, President of the University, is participating in an Association of American Colleges panel, "The Role of the College of Arts and Sciences in the University" in Boston today.

The panel is part of the 46th annual meeting of the association which concludes today. The theme of the conference is "Will the College of Arts and Sciences Survive?"

Yesterday, Dr. Eddy, UNH Vice-President and Provost participated in a panel discussion "The Validity of the Religious Tradition in Higher Education Today."

## APPAREL OFT PROCLAIMS THE MAN

The hounds of spring are on winter's traces. Soon we will be shedding our mukluks and union suits and putting on our spring finery. And what does Dame Fashion decree for the coming season?

(Dame Fashion, incidentally, is not, as many people believe, a fictitious character. She was a real English woman who lived in Elizabethan times and, indeed, England is greatly in her debt. During the invasion of the Spanish Armada, Dame Fashion—not yet a Dame but a mere, unlettered country lass named Becky Sharp—during the invasion, I say, of the Spanish Armada, this dauntless girl stood on the white cliffs of Dover and turned the tide of battle by rallying the sagging morale of the British fleet with this stirring poem of her own composition:

*Don't be gutless,  
Men of Britain.  
Swing your cullass,  
We ain't quittin'.*

*Smash the Spanish,  
Sink their boats,  
Make 'em vanish.  
Like a horse makes oats.*

*For Good Queen Bess,  
Good sirs, you gotta  
Make a mess  
Of that Armada.*

*You won't fail!  
Knock 'em flat!  
Then we'll drink ale  
And stuff like that.*

As a reward for these inspirational verses Queen Elizabeth dubbed her a Dame, made her poet laureate, and gave her the Western Hemisphere except Duluth. But this was not the extent of Dame Fashion's services to queen and country. In 1589 she invented the egg. In 1590, alas, she was arrested for poaching and imprisoned for thirty years in a butt of malmsey. This later became known as Guy Fawkes Day).

But I digress. Let us get back to spring fashions.

Certain to be popular again this year is the cardigan (which, curiously enough, was named after Lord Cardigan, who commanded the English fleet against the Spanish Armada. The sweater is only one product of this fertile Briton's imagination. He also invented the ball-peen hammer, the gerund, and the molar, without which chewing, as we know it today, would not be possible).

But I digress. The cardigan, I say, will be back, which is cause for rejoicing. Why? Because the cardigan has nice big pockets in which to carry your Marlboro Cigarettes—and that, good buddies, is ample reason for celebration. Do you think flavor went out when filters came in? If so, you've got another smoke coming. I mean Marlboros—all the rich, smooth flavor of prime tobaccos plus a filter that really filters. So slip into your cardigan and hie yourself to your tobacconist for some good Marlboros. They come in soft pack or flip-top box. Cardigans come in pink for girls and blue for boys. © 1960 Max Shulman

*If you're a filter smoker, try Marlboros. If you're a non-filter smoker, try Philip Morris. If you're a television watcher try Max Shulman's "The Many Loves of Dobie Gillis"—Tuesday nights, CBS.*

Scenes from the Sidelines

Iron Man

By DOUG BROWN

Throughout the annals of sports you will hear the tales of the iron men. Football followers will tell you of the Four Horsemen and Seven Mules, baseball fans will retell the stories of the immortal Lou Gherig who left his position at first base only because he was soon to be bedridden with the disease that was to take his life, and how about the great John L. who would fight anybody in the house; all night if need be. But right now UNH is producing its own breed of Iron men to compare with these glowing figures of the past. And just watch the notoriety that they receive.

The ones that I am talking about are the guys who tread their way down to the field house every afternoon to run around that board track just the other side of the now snow draped tennis courts. This weekend and every weekend they go through their paces, not because of an enormous scholarship, but because they like the sport. Some are here on football scholarships but even these are very little and no real cause for someone to go out in the snow and cold every afternoon when the rest of us are warm indoors.

This weekend, up at Maine, I witnessed an exhibition of desire that is hard to believe. It came from Cliff Lehman.

Cliff began the afternoon by entering the discuss throw. Working against his own teammate, John Ineson, and Maine's record setter Horne, he placed second, and sandwiched between the two.

But this was only the first event of the afternoon. A little while later he entered the 600 yard run. Again Cliff was forced to settle for a second, losing in the stretch as Stewart crossed the line at 1:14.7 and Lehman at 1:15.

A little later still, Cliff entered the 1000 yard run. This time it was Rolfe of Maine who found the tall Wildcat breathing down his neck.

But Cliff still was not content to settle back on his laurels with three second place finishes to his credit. He literally begged Paul Sweet to permit him to enter the mile relay, which meant another 440 yards to run. This time he was pitted against Maine's ace quarter miler, Conro. Cliff not only ran his leg but ran it in the best time of any of the men entered in the relay, a blistering 52.4 seconds.

Maine won the meet on points, but if such things were decided on overall effort, UNH, led by Cliff Lehman would be the team to beat.

UNH Ski Teams Enter Hanover Invitational

Hanover, Jan. 16—The Flopen Aufin Ski Club of Fitchburg, Mass., turned in a combined time of 156 minutes, 20 seconds,

here this afternoon to win the first half of the Hanover Invitational ski meet, a four man, 10 kilometer cross country relay race.

The Middlebury College "A" squad was second and the Dartmouth "A" team finished third.

Kittens Triumph Over Bates Win Third Straight 83-56

Led by Jim Rich's 19 points, the Wildkittens rolled to their third straight victory of the season, downing the Bates Jayvees, 83-56.

Ralph Messer continued to score in double figures dropping 14 points through the nets.

UNH (83)

Rf, Rich 9-1-19, Hooker 1-0-2, Cantine 4-1-9; lf, Gaidmore 0-1-1, Ahrendt 2-1-5, Porter 1-1-3; c, Mandravelis 1-2-1, Tolman 2-1-5, Savko 3-0-6; rg, Messer 6-2-14, Olson 0-1-1, Ogg 3-0-6; lg, Sullivan 2-0-4, Ebstyn 2-0-4.

Bates (56)

Lg, Taylor 0-0-0, Morse 2-1-5; rg, Harrison 0-2-2, Mallard 0-3-3; c, Glanz 2-3-7, Brown 2-1-5; lf, Tamis 6-2-14, True 1-3-5; rf, Wilson 2-3-7, Nye 4-0-8.

Coming Events

Freshman Hockey

No games until Feb. 11.

TSA

Jan. 27 Holderness (A)

Freshman Skiing

No meets until Feb. 17.

Individual winner this afternoon was John Bower of the Middlebury "A" team as he was timed in 27 minutes flat. Robin Bigelow of the Dartmouth "A" team was second and Flopin Aufin's Eric Kaunisto was third.

- Team Results:
1. Flopin Aufin, 156.20
  2. Middlebury College "A" 156.54
  3. Dartmouth "A" 156.58
  4. UNH "A" 201.32
  5. Dartmouth "B" 204.58
  6. Dartmouth "C" 205.53
  7. UNH "B" 210.59
  8. Paul Smith College 211.01
  9. Middlebury "B" 211.59
  10. Dartmouth "E" 212.02
  11. Harvard "A" 213.20
  12. Dartmouth "D" 215.01
  13. Maine 216.00

Wildcats Roll To Easy Win Over Engineers With 88-47 Score

Rhody Hands Cats Conference Loss As Greene Paces Locals

The Wildcats rolled over an injury riddled MIT team, 88-47 at the Lewis Field House last week.

Playing without their 17 point producing center, Dave Koch, the engineers gave little opposition to Coach Olson's charges as twelve Wildcats contributed to the lop-sided score.

Jack Couture and Vic Battaglioli teamed up to hold MIT's high scoring guard, Hugh Morrow to a mere nine points.

Second Half Splurge

Taking off behind guards, Marty Fischer and Vic Battaglioli after holding a 36-20 halftime lead, the Wildcats stretched their lead to 62-28 midway of the second half.

The coach Olson brought in the remainder of his bench who played the final 10 minutes. Brad Thorpe, John Kjellman and Bob Bron controlled the boards while contributing 14 points to the score over their short tenure in the game.

Frosh Win

The UNH Freshman basketball team blew a nine point lead and then came back and pulled to a 72-57 victory over the MIT Frosh.

Nick Mandravelis with 18 and Ralph Messer with 17 led the Kittens to their second straight win. Ken Groninger of MIT took game honors with 23 points.

UNH (88)

Rf, Greene 7-2-16, McEachern 1-0-2, Thorp 3-0-6; lf, Bridge 3-0-6, Davis 2-2-6; c, Smilikis 6-3-15, Bron 3-0-6, Kjellman 1-0-2; rg, Fischer 5-4-14, Battaglioli 4-1-9; lg, Couture 1-0-2, Kageleiry 2-0-4.

MIT (47)

Lg, Morrow 3-3-9, Bray 1-0-2; rg, Burns 6-0-12, Tisch 0-1-1; c, Halley 2-1-5, Smith 0-1-1; lf, Zeihn 3-2-8, Koch 1-0-2; rf, Gamble 2-1-5, Wyman 1-4-6.

The Rhode Island Rams staved off a resurging UNH quintet to post a 66-

57 Yankee Conference victory over the Wildcats.

The Rams seemed to be in complete command at half time entertaining a 31-22 bulge only to see the Wildcats roar back after eight minutes of the second half and cut the URI lead to 53-47.

Rhode Island caught fire for 10 straight points at this point and rolled to the win.

Greene High Man

High point man in the game was Jim Greene of UNH with 19 points. Pete Smilikis bucketed 10 for second spot on the team.

URI displayed a balanced attack with four men breaking 10 points, Stenhouse with 14, Ricerto and Koenig with 13, and Multer with 11.

UNH (57)

Lg, Fisher 2-0-4, Battaglioli 2-0-4; rg, Couture 1-0-2, Kageleiry 3-3-9; c, Smilikis 5-0-10, Bron 0-1-1; lf, Davis 3-2-8, Thorp 0-0-0; rf, Greene 9-1-19, Bridge 0-0-0, McEachern 0-0-0.

URI (66)

Rf, Ricereto 5-3-13, Lasala 1-1-3; lf, Keonig 6-1-13; c, Chaplin 3-2-8; rg, Harrington 1-2-4, Stenhouse 7-0-14; lg, Multer 5-1-11, Schachter 0-0-0.

Intramurals

The Intramural leagues are in full swing with the top teams sporting undefeated records. Important games are scheduled for this week, especially in Class C where two teams share the spotlight. The Hunter Jets and Engelhardt will square off for first place with each holding a 3-0 record.

In Class B Phi Kappa Theta leads with a 2-0 record. Kappa Sigma has one loss and is tied for second with Sigma Beta. (2-1)

In Class A ATO leads with a 3-0 record while Lambda XA follows with one loss. SAE is next in the ranks and will face Lambda XA on Monday.

New cigarette paper "air-softens" every puff!

Now even the paper adds to  
Salem's springtime freshness!

Salem's amazing new  
HIGH POROSITY paper  
"air-softens" every puff.

An important break-through in Salem's research laboratories brings you this special new HIGH POROSITY paper which breathes new freshness into the flavor.

Each puff on a Salem draws just enough

fresh air in through the paper to make the smoke taste even softer, fresher, more flavorful. If you've enjoyed Salem's springtime freshness before, you'll be even more pleased now. Smoke refreshed, smoke Salem!

• menthol fresh • rich tobacco taste • modern filter, too

Salem refreshes your taste

NOW MORE THAN EVER

## Stickmen Post Merrimack Win By Single Score

Rod Blackburn, Bob Patch and Ray March teamed together to give the UNH Wildcats a 3-2 victory over upset minded Merrimack College.

**Upset Wins**  
Merrimack entered the contest with upset victories over Tufts and Bowdoin, the same team that had previously handed the 'Cats two one goal defeats.

The Macs took an early lead on a George Pollock ricochette shot off of a UNH defenseman's skate.

**First UNH Goal**  
Patch and March then brought the puck back up ice and Patch sailed one past goalie Tom Tracy to knot the score.

With less than seven minutes gone in the second period, Sam Nichols scored an unassisted goal to put the Wildcats back in front, 2-1.

Merrimack then came back behind Lamphier to tie the score again.

**Blocked Goal**  
Midway through the last period, Blackburn displayed his abilities as a goal tender when the Macs were presented with a penalty shot. Blackie faked the on coming Pollock out of position (instead of the other way around) and sprawled on the ice blocking his chance for the goal.

Patch and March then teamed up for the third and final goal at 15:59 of the period.

Both goalies displayed a great deal of ability around the net as a total of 74 shots were taken by the two teams.

**First Period**  
Merrimack, Pollock, 3:42  
UNH Patch (March) 10:10

**Second Period**  
UNH Nichols 6:58  
Merrimack Lamphier (Dunn, Pollock) 18:00

**Third Period**  
UNH Patch (March) 15:59  
Saves Blackburn UNH 35, Tracy Merrimack 34.  
UNH 1 1 1 3  
Merrimack 1 1 0 2

### TSA Triumphs

The Thompson School of Agriculture basketball team posted a 36-21 victory over the New Hampton Prep Junior Varsity in a game played at the UNH field house.

Gaskell lead the university team with a total of 20 points.

**Summary:**  
TSA (36)  
f Richardson 0-1-1, Bohannon 3-0-6, Dustin, c Gaskell 9-2-20, McKenzie 1-0-2, g McGill 4-0-8, Rasys, Smith.  
New Hamp. (21)  
f Kidder, Goode 3-2-8, c Nelson 2-0-4, g Bicknell S. 2-2-6, Bicknell D. 1-1-3.

## UNH Track Team Loses To Maine Squad 82-39

The Wildcats track team traveled to Orono, Friday, for a meet with the Maine Bears.

Capt. Doug Blampied and Paul Lindquist posted first in the 50 yard dash and shot respectively but the Cats were subdued by the larger Maine squad 82-39.

**Lehman Runs**  
Cliff Lehman was the big show for the Wildcats posting seconds in the discus, the 1000 yard run, the 600 yard run and then the first leg of the mile relay in a fast 52.4 seconds.

Ed Pelczar and Dan Emery also played iron man rolls. Pelczar placed a second in the mile and then ran third in the 1000 behind Rolfe and Lehman. Emery ran third in both hurdles and then picked up a second in the broad-jump.

**Summary**  
**50 yard dash** — 1. Blampied (NH) 2. Delano (M) 3. Conro (M) time 5.7  
**1 mile relay** — Maine time 3:30.2  
**600 yard** — 1. Spencer (M) 2. Lehman (NH) 3. Stewart (M) Time 1:14.7  
**1000 yard** — 1. Rolfe (M) 2. Lehman (NH) 3. Pelczar (NH) Time 2:23.7  
**1 mile** — 1. Kimball (M) 2. Pelczar (NH) 3. Morse (M) Time 4:33.0  
**2 mile** — 1. Daly (M) 2. Kimball (M) Fowler (NH) Time 10:04.5  
**45 yard HH** — 1. Ives (M) 2. Whitten (M) 3. Emery (NH) 6.1  
**65 yard LH** — 1. Ives (M) 2. Whitten (M) 3. Emery (NH) Time 8.1  
**Shot** — 1. Lindquist (NH) 2. Horne (M) 3. Cramer (NH) distance 46' 1 1/2"  
**Discus** — 1. Horne (M) 2. Lehman (NH) 3. Ineson (NH) distance 149' 7 1/2"  
**Pole Vault** — 1. Nichols (M) 2. tie Beach (NH) and Dubois (M) height 11' 6"  
**High Jump** — 1. Cloutier (M) 2. Winn (NH) height 5' 8"  
**Broad Jump** — 1. Hale (M) 2. Emery (NH) 3. Cloutier (M) distance 21' 7 1/2"  
**35 lb. weight** — 1. Horne (M) 2. Ineson (NH) 3. Morrison (M) distance 53' 3 3/4"

These are the silver wings of a U. S. Air Force Navigator. As a flying officer on the Aerospace team, he has chosen a career of leadership, a career that has meaning, rewards and executive opportunity.

The Aviation Cadet Program is the gateway to this career. To qualify for this rigorous and professional training, a high school diploma is required; however, two or more years of college are highly desirable. Upon completion of the program the Air Force encourages the new officer to earn his degree so he can better handle the responsibilities of his position. This includes full pay and allowances while taking off-duty courses under the Bootstrap education program. The Air Force will pay a substantial part of all tuition costs. After having attained enough credits so that he can complete course work and residence requirements for a college degree in 6 months or less, he is eligible to apply for temporary duty at the school of his choice.

If you think you have what it takes to earn the silver wings of an Air Force Navigator, see your local Air Force Recruiter. Ask him about Aviation Cadet Navigator training and the benefits which are available to a flying officer in the Air Force. Or fill in and mail this coupon.

There's a place for tomorrow's leaders on the Aerospace Team.

## Frosh Track Lose To Phillips Exeter

Curt Berrien set a new record in the low hurdles as Exeter Academy piled up points on both hurdles and the pole vault to post a 75 3/4 to 32 3/4 victory over the UNH freshmen.

Bob Barrett of UNH posted victories in both the discus and the shot.

The highlight of the meet was the 600 yard run which pitted Exeters Parker against Sandy Fiocco of UNH.

**40 Yard** — 1. Tie Read (NH) Kirkpatrick (E) 3. Hitzrot Time 4.8

**300** — 1. Hitzrot (E) 2. Berrien (E) 3. Forte (E) Time 34.5

**600** — 1. Parker (E) 2. Fiocco (NH) 3. Nolan (E) Time 1:19.6

**1000** — 1. Denson (E) 2. Latour (NH) 3. Clay (E) Time 2:30.2

**1 Mile** — 1. Nichols (NH) 2. McCarthy (E) 3. DeMoultied Time 4:50.5

**45 HH** — 1. Kirkpatrick (E) 2. Berrien (E) 3. Von Lockette (E) Time 5.9

**65 LH** — 1. Berrien (E) 2. Kirkpatrick (E) 3. Von Lockette (E) Time 7.5

**Shot** — 1. Barrett (NH) 2. Tripp (E) 3. Bigelow (NH) Distance 50 ft 6 in.

**Discus** — 1. Barrett (NH) 2. Bigelow (NH) 3. Mahaney (E) Distance 134 ft. 1 in.

**Pole Vault** — 1. Mahaney (E) 2. tie Rowland (E) and Forte (E) Height 12 ft. 0 in.

**High Jump** — 1. Tie Overton (E) Rowland (E) 3. Tie Laurent (NH), Stannard, Westbrook, and Imes (E). Height 5 ft. 8 in.

**Broad Jump** — 1. Calhoun (E) Fiocco (NH) 3. Berrien (E) distance 21 ft. 4 1/2 in.

### Frosh Win 6-1

The University of New Hampshire Freshmen Six took a 6-1 decision from Cranston (R.I.) High, with Dick Lamontagne, Tom Canavan and Peter Thompson netting two goals each.

Industries . . .

(Continued from page 1)

dents and the state." He said that bankers have to be interested in all types of industry, and that this show gave them a good chance to see just how New Hampshire is progressing industrially.

Mr. Littlefield of the Department of Employment Security, a state agency, said that he noticed that the students were very interested in this exhibit. His agency was not interviewing, but he said that he had talked to several students. He felt they were quite concerned with industry in their state.

Mr. Herbert Taylor of the sales department of Clarostat Mfg. Co. felt that this whole project went very well. He felt that it was "designed for senior engineering students and graduates, and also for companies to show their wares." He said that it would have been beneficial for textile industries and food manufacturers to have displays that would interest the girls. He said that he was surprised at the number of girls that had attended the show. "This is only a small niche of New Hampshire industry," Mr. Taylor said.

Several students have said that they thought this exhibit was very worthwhile. One student said, "By being able to talk to men in industry we are able to see what our chances are for employment upon graduation."

The girls felt that there should have been more exhibits geared to them. One girl stated, "There is so much industry in this state that women would be suited for, but they did not have any representatives at this show."

All representatives agreed upon the fact that there is a great deal of industry in New Hampshire, much of which people know little. Only about one tenth was represented in the Stafford Room, and many people were amazed at this fact.

The show was closed Friday noon with a luncheon given by President Johnson. All chief executives of the companies attended.

Those companies exhibiting are as follows: Granite State Machine Co. Inc., Marken, Joy Manufacturing Co., Brown Co. of Berlin, American Optical Company, Miniature Precision Bearings, Inc., Duracrete Block Co. Inc., Spaulding Fibre Company, Inc., Edgcomb Steel of N. E. Inc., Clarostat Mfg. Co. Inc.,

decision of the committee. The applicant must be qualified, have facilities, and will receive from the grant money for assistants, supplies, and travel. The grants vary from five thousand to fifty thousand dollars and are good from one to five years. The Institutes have the largest amount of money available for health research.

The members of the group which met are appointed by the Institutes for a period of four years. They are specialists who come from all over the country from such institutions as Harvard, Yale, Michigan, Minnesota, New Hampshire, and Cal. Tech.

Dr. Slanetz made a jet flight out and back, and found the whole trip enjoyable. He said that the meetings were strenuous, but informative.

California was enjoying the coldest weather it had had in fifteen or twenty years, but when Dr. Slanetz left, the temperature was seventy degrees.

Dr. Slanetz particularly enjoyed his

Raises . . .

(Continued from page 1)

merit — none "across-the-board". Therefore, changes ranged from nothing to comparatively sizable amounts.

According to U. S. Office of Education figures, it takes a seven percent salary increase each year for a university to maintain its competitive salary position. In order to support the new UNH salary plan and keep the comparative position nationally, the Board of Trustees has indicated that in the future some increase in student fees may be necessary.

A large percentage of the nickel alloys in current use find applications in industry because of their resistance to various forms of corrosion.

tour of Cal. Tech. He found that it is a high quality institution with as many graduate students as undergraduates. They have an excellent staff and good facilities. Most of his time in California was spent on the campus.

Rubberneakers . . .

(Continued from page 4)

made any attempt at conversation extremely difficult.

As I gazed indifferently toward the front of the room, I saw people: older people, people long past student-age, somber-faced husbands and wives, happy-faced husbands without wives, wives, and all sorts of derelicts with gaping round eyes.

**Snooping!**

Suddenly I felt self conscious. I felt as though I were a fish in a bowl, or a rabbit in a cage, being looked on as some sort of curiosity, or oddity, with no place to take cover from the stupid peering eyes all around me. Up on the balcony it was the same. Behind a dubious potted plant a telescope slowly roamed forth and back across the room, resting on me for one unbearable instant during which I had the most remarkable feeling of nudity.

Then as the eyes ordered food and carried it to their tables, some of them chanced to walk by Walter and me. They took a last questioning glance before sitting down to eat. It was as though they were disappointed; as if they didn't expect to find a regular person like themselves.

As if a Student is some freak, or intriguingly different creature to be carefully distinguished from human beings.

I can just hear them saying: "Dear, I'd like a little excitement for a change. Why don't we take a trip to UNH to see how the savages there eat?"

I for one am sick and tired of this nonsense. The Mub (theoretical-ly) is our home away from mother's. Nobody comes into my home to watch the funny way I do things.

Just like Mother's Day and Dad's Day, why not have a special Rubbernecker's Day, so that we may fittingly prepare ourselves to be observed.

Does studying for exams make you want to zzz-zz-zz?
